

Copy and place this page in your pattern.

As I was in the process of remaking "Midnight Floral Fantasy" I found that a step had been missed in the pattern booklet. It is something simple and most of you would have figured this out on your own when you got there, but I am sending this correction in hopes of saving you some frustration.

Add this to the top of page 10 in your booklet.

After you have sewn your four 26" square applique blocks together for the center of the quilt it should measure from raw edge to raw edge 51 1/2". (Figure 1)
Trim 1 1/2" from all four sides of the center block (Figure 2) before adding the 2" pink inner border. Your four blocks combined should measure 48 1/2" from raw edge to raw edge. The finished size will be 48".
